As the size of our homes becomes progressively smaller, we increasingly seek design solutions that integrate multiple functions within a single welcoming and cosy space. Within these pages you will also find design ideas for outdoor spaces such as balconies, terraces, courtyards and even roofs. Although uncovered, these areas can be transformed into well-used complementary spaces, especially during the warmer months. We will show you how to get the best out of your home, revealing the ultimate tips and tricks that will ensure that it is as contemporary and welcoming as possible.
