Gambier Island Residence

**214** **Ryoko & Keisuke Masuda**  
House in Kitamoto

**222** **FINNE Architects**  
Lake Forest Park Renovation

**232** **Peter Kostelov**  
Timber Patchwork "Dacha"

These works feature a striking range of innovative uses of wood in interior design. Widely admired for the warmth and natural ambience it lends an interior space, wood has recently enjoyed a resurgence of interest in architecture, as these high-quality projects demonstrate. Included in this volume are sophisticated residences, contemporary homes, and small but remarkable wood houses & cabins. Outstanding photographs and explanatory texts transmit the architects' enthusiasm for their medium and the flexibility and charm of wood interiors.
