New Signage Design: Connecting People & Spaces collects the latest and freshest signage and wayfinding designs from all over the world. They are all tailor-made for specific spaces, including schools, hotels, shopping malls, libraries, parking garages and medical facilities. These successful signage projects not only help people find their way easily, but also aesthetically integrate the whole building's architecture and interiors with graphic design. This informative guide to the world of signage is an indispensable resource for graphic designers, planners and architects alike.
