

A high-angle, wide shot of a modern villa's outdoor deck and infinity pool. The deck is made of light-colored wood and leads to a long, narrow infinity pool that blends into the ocean. The sky is a deep, overcast blue. The villa's interior is visible on the left, showing a dining table and a decorative vase. The overall mood is serene and luxurious.

Sumptuously illustrated, *Ocean Villas* is a compilation of exemplary seaside residences designed by an international group of award-winning architects. The villas chosen for this volume highlight and heighten the experience of being among some of the most breathtaking and secluded natural scenery in the world, even while retaining the highest level of modern amenities and comfort. They all display a strikingly contemporary design language that takes full account of their context in the tropical climate. While mostly situated on islands in the south of Thailand, the architectural ideas and inspirations contained within this volume are relevant to all buildings in the tropics.
